Contract RD-35, Task I, Cost of [REDACTED]

25X1

REFERENCES: A. Memo to Chief, Engineering Division, OC, from Contracting Officer, dated 24 June 1954

B. Memo to Chief of Procurement and Supply from Assistant Director for Communications, Reference OC-1746, M-4365, dated 24 April 1953

C. Memo to Chief of Procurement and Supply from Assistant Director for Communications, Reference OC-470, M-649, dated 12 June 1952

1. Paragraph II(e) of the attachment to Reference C authorized the building of the [REDACTED] discussed in Reference A. Reference B made funds available from the subject contract for building the [REDACTED] and for furnishing equipment for it.

25X1

2. [REDACTED] items such as driveways, walks, power lines, light poles, water system, sewage pumps and tanks, grading, etc. have been used in common for the subject contract, a Signal Corps contract, and an Air Force contract. It therefore appears fair to ask the Contractor to divide the cost for such items equally among the three agencies involved, and to request that two thirds of the total cost be paid by the Air Force and by the Signal Corps. If the Contractor is unable to obtain payment from the two latter agencies, however, we feel that [REDACTED] should be fully reimbursed for the above mentioned items under authority of Item II(e) of Task I, Contract RD-35. This opinion is further substantiated by the fact that the Agency had an urgent requirement for the [REDACTED] and the Contractor foresaw delays in setting up the facilities for the Air Force and the Signal Corps.

25X1

25X1

3. Any action which is taken regarding payment of these charges is not to affect the previously authorized cost of the subject task.
